CALIFORNIA DORSET BREEDERS WELCOMES 2009 NATIONAL DORSET SALE

One of the high quality Polled Dorset Fall Ewe Lamb classes at the 2009 National Dorset Sale in Reno with judge Jeremy Etzler placing the class.

The 2009 National Dorset Sale headed west to the Nugget All-American Sale held at the Asquaga Nugget Hotel & Casino in Sparks, NV and was welcomed with open arms by the California Dorset breeders. The California group were excellent hosts for the event held from May 28-30. Polled and Horned Dorset breeders from all around the country supported the sale by bringing an excellent consignment of Dorsets to the event.

Things got started on Friday, May 28th with the ewe shows. There were a lot of quality animals presented to judge Jeremy Etzler of Ohio. Champion Polled Dorset Ewe went to Riverwood Farms, Powell OH on their yearling ewe entry and Reserve Grand Champion went to Spilde Brothers of Stoughton WI on their late fall ewe lamb. In the horned division, Champion Ewe went to the yearling ewe from Cassell Horned Dorsets, Wytheville, VA and Reserve Champion was the other yearling ewe entry from the Cassells.

WOW!! ONLY WAY TO DESCRIBE ALL AMERICAN JUNIOR SHOW IN OHIO

The 16th Annual All-American Junior Show was held at the Darke County Fairgrounds in Greenville, OH from July 3rd-5th and WOW!! Is the only way to describe the event. 2009 was the largest show to date with 345 exhibitors entering 1916 head! There were 23 states represented with 13 breeds of sheep participating in the show.

The Dorset shows, both Polled and Horned, had record numbers and excellent quality! The Polled Dorset Show had 246 head entered and the Horned Show had 66 head. Both of these numbers are higher than the National Junior Shows in Louisville last year. This summer venue allows many families to take off for a long weekend and enjoy not only a sheep show but recreational time as well because the All American features so many outside of the show ring activities.

The Dorset exhibitors also enjoyed a BBQ lunch on Saturday hosted by the National Junior *continued on page 7*

Keith Berry, IN judged the Dorset Wether Sires and Dams and selected the fall ewe lamb from Univ. of Cal-Davis as Champion and the yearling from Griffith Dorsets, Pavillion, WY as Reserve Champion. Ewephoric Dorsets generously donated awards to the best

headed dorsets. The Polled Dorset Best Headed Ewe was a beautiful headed yearling ewe from Mona Lisa Petterson, Bothell, WA. The best Horned Dorset Ewe was another good headed yearling ewe from Monte Forster, Tangent, OR.

On Thursday evening, the CDC held it's Annual Membership Meeting along with a social hour co-sponsored by the California Dorset Breeders Association. A good time was had by all and a lot on money was raised for the California Dorset group as they had many items for auction from baked goods to California wine. They also had gift "buckets" for each consignor and special Dorset guests, filled with items from California. Thank-you to all the breeders from the West Coast for all of their hospitality!

Friday was the day of the ram shows. The Polled Champion Rams went to a couple of Ohio breeders. Twin Oaks Dorsets, Belle Center, OH had Champion on thier January ram lamb and McCarthy Dorsets, Sycamore, OH had Reserve Champion on their Early Fall Ram Lamb entry. On the horned side of things, Champion Ram was the Yearling Ram entry from Cassell Horned Dorsets and Reserve Champion went to the Early Fall Ram Lamb entry from Ewephoric Dorsets, Shafter, CA. New J.R. Henderson Supreme Dorset Plaques were ordered as the original trophies, honoring the longtime CDC Dorset Secretary from 1923-1974, were retired after 20 years. The two new plaques were awarded to the two Polled Dorset Breeding Sheep from Riverwood Farms and Twin Oaks Dorsets. The California Dorset Association started a new plaque in honor of California Dorset Breeder Ken Ghiselin that goes to the California Best Dorset Consignment. Wether Type Sheep had a \$314.29 average. A complete sale report appears later in his newsletter.

All in all it was a very successful weekend for the Dorset Breed and the 2009 National Sale!

LETTER FROM CDC PRESIDENT MIKE GALLEHER

Greetings from Ohio

As I sit down to write this message on the last day of August, it is Morrow County fair time. We are not showing this year for the first time in many years due to circumstances that did not allow enough time for getting the sheep ready. Although I will miss not showing, it is not quite the same with my daughters grown up and out of 4-H and no grandchildren yet to take their place.

After the fair comes the beginning of the school year around here. Just as students prepare for the first day of school, we are getting ready for the fall lambing season. Setting up the lambing pens, vaccinating the ewes for overeating, and bringing the first ewes to lamb off pasture are a few of the preparations being made before the first lambs come.

Just as students anxiously await starting their new courses or meeting their new teachers, I am anxiously awaiting the arrival of the offspring of our new stud rams. Did we choose rams that will improve our flock? Was the nutrition of the ewes adequate for them to produce large and healthy lambs? Did we put the right ewes in with the right rams?

These questions will be answered as the lambs are born and as they grow. As most of you know improvements to your flocks take time and effort. As we attempt to make changes to better our sheep, sometimes we think that we are going in the right direction, but we actually may be taking a step backward in our breeding program.

Our association continues to face many challenges. As the board of directors attempts to make changes to improve the group and the breed, some may work out and others may not. Sometimes we move too fast for some and too slow for others.

At the board of directors meeting held during the National Show and Sale at Reno in May, we discussed the results of the survey sent out earlier in this year. As we went over the responses, we were disappointed at the low percentage of the breeders that responded. The board felt the need for more of you to take part in this process. If you have not filled out a survey yet, we are giving you until Louisville to respond. Make your opinions known.

I would to say a big thank you to Frank Tiffany for serving on the board the past three years. He has been a valuable part of the board and will continue to be the webmaster for our website. The board looks forward to working with Hoop Peterson again as he begins his second time on the board.

Good luck with fall lamb crop and I hope to see many of you at NAILE in November.

Mike Galleher, CDC President

Dorset Association. A special thank-you to all those breeders and members including Becky Saylor, Joy & Kara McCarthy, and Roger High. A very special thanks goes to Pat Myers, who organized the entire Ohio effort for the show. Thank-you to the special donators we had for the Dorset show including the two ewe lamb dona-

tors Twin Oaks Dorsets and Mark lughhun Family; special monetary donators Thomas Walsh, Titan Fan, Purple Ribbon Farms; all the class sponsors and breeders that bought raffle tickets. Thanks to all of you the Dorset breed was the leader in support for their show and exhibitors!!

There were five group nominators: Riverwood Farms, Superior Farms, Spilde Brothers, Olivia Waggoner and Cassell Horned Dorsets. Discussion on the wether type futurity was discussed. According to the survey there wasn't a whole lot of support at this time with 13 breeders saying yes, 9 no and 14 with no opinion. It was decided not to enact anything different to the futurity presently.

-Breed Standard: John Monahan thanked Billy Cox and Greg Ahart for doing the

inspection for the national sale. Discussion on the purpose of the breed standard inspection followed. Board felt it is still important as a judge education tool, gathering of data when needed, and keeping the breed standard in the forefront. Four new names were presented to be put on the certified judges list: Jared Poynter, Jeff Poynter, Terry Burks and R. Dean Cron. Larry Hunter moved to accept the four names presented to the certified judges list. John Monahan seconded. Motion carried. At this point the board decided to extend the deadline for the CDC member surveys to get more surveys into the office. The results will be evaluated at the fall board meeting. At that point results will be published to the membership and issues dealing with height, weighing animals, slick shearing, and a possible judge certification school will be discussed. It was noted that the inspections at Louisville will not take place in 2009 as enacted by the board at the last board meeting.

- Production Dorset Committee: Melanie Barkley reported that she had sent an email out to the committee. They were pleased with the production focus in the fall newsletter and the establishment of the Dorset Excellence Program. The committee would like to see some target advertising of production Dorsets in sheep industry periodicals and get identified in the Dorset breeders' directory of production breeders like the horned Dorset breeders are.

-Dorset Breeder Excellence Program: Mike Galleher reported that the Horned Dorset winner presentation will be tomorrow to Marlene & Greg Bell. The Polled Dorset winners, Ken & Kathy Soder, will be honored at the Penn Ram Test Sale in August. John Monahan moved that the CDC sponsor the two \$200 cash awards

Web master Frank Tiffany will come up with an advertising plan to be promoted.

Deb Hopkins presented a financial report on the past two issues of the Dorset Connection. The 2009 winter issue was 52 pages with 17 ¾ pages worth of advertising for a net income of \$334.21. The 2009 Spring/Summer issue was 32 pages long with 15 ¾ pages of advertising for a net income of \$85.91. The Dorset exhibitors and their families will once again have a lunch on Saturday sponsored by the Junior Dorset Association. Evan Snyder and Eric Bruns will be judging. It looks like it is going to be a good show as there has been a lot of interest. Deb would also like to thank Saylor Twin Oaks and Mark lunghuhn & Family for donating ewe lambs this year for the show. There was a class sponsorship list taken around at Ohio and it was filled in very nicely by the breeders present. The Dorset breed has also had donations from Purple Ribbon Farms, Tom Walsh and Titan S. Fan towards the show. The 2010 show will be taking place in Michigan.

ANN STAVER

Ann Staver, 82, died Saturday April 18, 2009 at her home in Palmyra, PA. Born October 3, 1926 in Vestaburg, PA. a coal mining village, she was the daughter of the late John and Sophia Bugarich, Ukranian immigrants, who resided on a farm in Berks County, PA.

Ann grew up on a dairy farm, earned a degree in agronomy from Penn State University and was a pioneer for women in agriculture. When her children reached school age, Ann returned to the classroom as a science teacher at Swatara Junior High School until her retirement in 1993. Ann was a faithful community member of East Hanover Township, Dauphin County as a PTA, school bard, and zoning board member, a swimming instructor, girl scout leader and poll volunteer. She was an active participant in the Pennsylvania agriculture community as a 4-H leader, member of the Lebanon County Farm Women, Manada Nature Conservancy, and a founding coordinator of the PA Sheep to Shawl competition.

Following Ann's marriage to Ken, the Stavers started farming and raising a family on their Dauphin County farm, and

combined their talents and energy into a lifelong dedication to agriculture and the sheep industry of Pennsylvania. She was co-owner with Ken, of a purebred flock of Polled Dorset Sheep, Ovine Alley Dorsets, for 40 years. Ann served on the Continental Dorset Club Board of directors as the Eastern Director from 1982-1987. Ann also served on the search committee for a new breed secretary in 1998.

Ann will be sorely missed in the purebred Dorset industry. Her and Ken were a fixture at many Eastern sheep activities including the New England Sale, Keystone Sale, KILE, Eastern Stud Ram Sale, PA Farm Show and Penn Ram Test Sale. Ann was a strong promoter of the Dorset breed and started out many young people in the breed.

Surviving her are her husband of 60 years, Kenneth W. Staver; their children Dr. Charles Staver; Dr. Julia Staver and Dr. Kenneth Staver, Jr.; sisters, Margaret Barnes and Martha Gallagher; grandchildren, Carla and Ben Staver, Sophia Pifer, and Hilary, Charlotte and Warren Staver. In lieu of flower, memorial contributions may be made in Ann's memory to the Grantville Area Food Pantry, P.O. Box 2, Grantville PA.

Steps to Insure Lamb Quality for the Consumer

By **Melanie Barkley**
PSU Extension Educator

Media coverage of food products finds many consumers becoming skeptical about the quality of the foods that they are eating. As a sheep producer, there are a number of steps you can follow to insure that the consumer will receive a high quality product and have an enjoyable eating experience. Here are some considerations to help insure that a consumer enjoys eating lamb:

Identification: In order to keep accurate flock records, it is important to have all your animals identified. This is very important for tracking any treated animals in your flock as well as keeping track of pedigrees for registered stock.

Injections and Antibiotics: Regardless of the route of administration for injectable products, scar tissue will form at the injection site. As a producer, your goal is to minimize the damage from injections. When given a choice, select a subcutaneous product (given under the skin) over an intramuscular product (given in the muscle). Another important point is to always give injections in the neck. There is a triangle that is formed from the shoulder blade, the spine at the bottom of the neck and the cartilage at the top of the neck. All injections should be given in this area, with not more than 6 to 8 cc given in one location. Choose an appropriate length and gauge of needles used for injections. For subcutaneous injections, one half inch in length and 18 or 20 gauge is sufficient. One inch needles can be used for intramuscular injections.

Follow dosage instructions carefully when treating any animal and record withdrawal dates so that no medication residues remain in the meat. A good rule of thumb is to record the date, which animals were treated, what they were treated with, the dosage and the withdrawal date. You may also want to include product serial numbers in your records to follow up if a

Maintain up to date records of any medication products given to livestock. Records should include date, product used, who was treated, dosage and withdrawal date.

product does not work properly. Be sure to use products that are approved for use in sheep unless under the direct supervision of your local veterinarian. And, remember that feed additives may only be fed to the species listed on the product label.

Animal Handling: Animal handling is important to prevent bruising on carcasses and to keep stress levels low for the animal until they are harvested. Check all handling facilities and trailers for any areas where an animal could become bruised or cut.

Biosecurity: In order to provide a high quality product for consumers, sheep producers should follow some basic biosecurity principles for keeping their flock healthy. Establish a biosecurity plan for your flock that includes a protocol for any visitors on your farm. In addition, provide an isolation area for any animals returning to your farm, or arriving at your farm for the first time from another farm.

Always give injections in the neck of an animal and choose products given subcutaneously to minimize tissue damage.

Flock Management Plan: Develop a health management plan for your flock to keep the animals healthy and prevent illness. This plan can include anything from routine health treatments to deworming schedules, mortality disposal and marketing. Don't forget to include biosecurity as part of the plan.

Housing and Facilities: Providing adequate fencing, shelter, ventilation, feeder space, and watering systems will help to keep animals healthy as well as growing rapidly. This area certainly provides economic benefits to producers as well as presents a positive image to the public.

Nutrition: Meeting nutrient requirements for animals will promote healthy animals. Keep contaminants such as manure, fuels, pesticides, and pet foods away from feed sources and feeding areas. Also, secure grain sources to keep out critters: rodents, raccoons, opossums, and cats. And, don't forget to clean the watering systems and feeders on a regular basis.

Record keeping: In addition to breeding and lambing records, keep detailed records on medication treatments and deworming. Keeping track of sheep with chronic problems can be useful when selecting animals to cull from the flock.

All these items work together to insure that consumers receive high quality lamb and lamb products. They also help to reduce processing wastes which in turn can boost prices that packers are willing to pay for lambs. Why not take a look at your own operation and identify any areas where you could make changes to improve the quality of lamb coming from your farm or ranch.

YOUTH NEWS

2009 DORSET EWE FUTURITY UPDATE

The Dorset Ewe Futurity Program has been very active this year with a lot of nominations and point records forms coming into the CDC office. Without your support this successful futurity program would not be possible! A total of \$5250 has been raised to pay out to the participants of the polled and horned ewe lamb divisions. On the back cover of this newsletter is a list of all the nominators! We were fortunate to have five group nominators this year.

Riverwood Farms Superior Farms, Spilde Brothers, Olivia Waggoner and the Cassell Family were group nominators at the 2009 sales.

231 ewe lambs have been nominated this year, 192 polled ewe lambs and 39 horned dorsets. Of those, 84 have been tattooed by their new junior owners for participation in the futurity program. To date the CDC office has received point record forms from 48 of these junior owners. Don't forget that you don't have to show at a regional junior show to be eligible for premiums but exhibitors are still

rewarded for attending regional shows as they are awarded double points. **These point record forms need to be received in the CDC office within 21 days of the date of the show or they will not count. They also need to be signed by show management. Also, the deadline to send in Regional Point Record forms into the CDC Office is Nov. 9th.** This allows the office enough time to tabulate final regional placing before Louisville. Those regional points will carry over to your Louisville junior show placing if you are attending that show to compete for the separate Louisville premiums.

The yearling ewe division has had a record number of 9 yearlings nominated. Keep sending those point record forms in on the yearling ewes. The yearling ewe futurity will also end at the National Junior Dorset Show in Louisville like the ewe lamb program.

All the regional polled and horned ewe lamb winners will be announced and recognized at the National Junior Association Meeting on Saturday, November 14th in Louisville. Immediately after the junior shows on Sunday, November 15th, the final national placings will be announced in the polled ewe lamb, horned ewe lamb and yearling ewe futurities. Awards will be given out along with the breeder plaques.

The futurity points are updated on a regular basis on the CDC website to keep everyone apprised of point totals. We do this so you can make sure that the CDC office has received all your point record forms. If you have any questions please feel free to contact Deb Hopkins at (401)647-4676.
